Subject: Gate counts stats -- Martin Campus

Glen ~~has turned in his stats for 2006-2007 and for Fall 2007~~ ^d Here are the results. Remember that we do not have stats from Fredd (due to technology problems with our door counter!), but their lack does not account for a drop in the doorcount.

October 2006	21,796	+318
November 2006	15,726	-4,248
December 2006	11,007	+886
January 2007	14,886	-996
February 2007	15,159	+995
March 2007	14,281	-10,700
April 2007	18,094	+836
May 2007	6,447	-362
June 2007	11,351	+632
July 2007	15,092	+1686
August 2007	15,092	+3,246
September 2007	19,092	-5,643
Total	174,678	-8,906 (5% decrease)

This averages to ⁴²⁰ 847 daily (based on 206 required number of class and exam days) or ⁴¹⁰⁰ 4235 weekly.

By comparison, the average of all ACS two-year college libraries is 1460. The group low is 142 and the group high is 5108. The state average is 2735 for all academic institutions and the national average is 4276 for all academic institutions. I think those last two numbers sound a little off, given the size of all academic institutions, but that's what the NCES site says!
